A Sprained Ankle.

As usually treated a sprained ankle will disable the injured person for a month or more, but by applying Chamberlain's Liniment and observing the directions with each bottle faithfully, a cure may, in most cases, be effected in less than one week's time. —One of the prettiest girls in Archbold says she steams and sweats her face regularly once a week over her mother's wash tub. She says turning the wringer makes her arms so plump and hanging out clothes has enlarged her bust measurement several inches, while the exercise of stooping and lifting clothes makes her waist line smaller. She says hurrying from stove to table while helping her mother get the meals gives her good control of her lower limbs and poise and dignity so many men admire. This girl can have her choice of three desirable young men right now.—Archbold Buckeye.

Not a Drop of Alcohol

What is a "tonic"? A medicine that increases the strength or tone of the whole system. What is an "alterative"? A medicine that alters or changes unhealthy action to healthy action. Name the best "tonic and alterative"? Ayer's Sarsaparilla, the only Sarsaparilla entirely free from alcohol. Ask your own doctor all about it. Never take a medicine doctors cannot endorse. J. C. Ayer Co., Lowell, Mass.

Without daily action of the bowels poisonous products must be absorbed. Then you have impure blood, biliousness, headache. Ask your doctor about Ayer's Pills for constipation.
